### asics HYPERSPRINT

The Hyper Sprint is a specialist sprint spike for distances up to 400m. High grade upper materials and a zero heel height for maximum toe off.

### asics HYPERROCKET GIRL

This updated version of the Hyper Rocket Girl is a spike designed specifically for the female athlete and is ideal for the middle to long distance runner, jumpers and hurdlers

### asics HYPERSM

The Hyper SM is a great versatile all round track spike. Featuring a new lightweight but durable mesh upper this spike is ideal for the middle to long distance runner, jumpers and hurdlers.

ARRIVING DEC

### asics HYPERSM

The 2017 Hyper SM is a great versatile all round track spike. Featuring a new lightweight but durable mesh upper this spike is ideal for the middle to long distance runner, jumpers and hurdlers.

ARRIVING DEC

### asics HYPERSM

Best suited for middle to long distance events but also a great versatile spike for those that require extra heel protection. The Hyper SM has a full length EVA midsole and a lightweight and breathable upper.

### asics DS RACER 11

An incredibly lightweight race shoe that offers impressive support and cushioning for such a minimal platform. Medially placed DuoMax and midfoot Guidance Trusstic provide optimum stability and support, while a rearfoot GEL unit attenuates shock.
